

Inuit

WORD OF THE DAY: NOMADIC: moving from place to place without a permanent home base.

1. You should tell the students that there are almost no examples today of Inuit living in iglu camps. Some do build them temporarily for hunting expeditions. The communities of this story were the last ones existing in these camps during the 1960s. The government of Canada moved most of these camps into permanent settlements where the students would have to go to school.
2. You should tell them that the old word for Inuit was Eskimo. They are North American Indians.
3. You might ask them if they would like to live the nomadic life of the Utku—what are some of its positive and some of its negative points?
4. Ask them if there's any American parallel to IHUMA. Do their parents ever treat the youngest children with more leniency because they don't believe they have the ability to behave?
